this is the first book length study to read women of the beat generation as feminist writers the book focuses on one author from each of the three generations that comprise the groups of female writers associated with the beats diane di prima ruth weiss and anne waldman as well as on experimental and multimedia artists such as laurie anderson and kathy acker who have not been read through the prism of beat feminism before this book argues that these writers feminism evolved over time but persistently focussed on intertextuality transformation revisionism gender interventionist poetics and activism it demonstrates how these beat feminisms counteract the ways in which women have been undermined possessed or silenced

in this volume doug underwood asks whether much of what is now called literary journalism is in fact literary and whether it should rank with the great novels by such journalist literary figures as twain cather and hemingway who believed that fiction was the better place for a realistic writer to express the important truths of life

as striking counter intuitive and distasteful as the combination of children and anxiety may seem some of the most popular children s classics abound in depictions of traumatic relationships bloody wars and helpless heroes this book draws on freudian and lacanian anxiety models to investigate the psychological and political significance of this curious juxtaposition as it stands out in golden age novels from both sides of the atlantic and their present day adaptations the stories discussed in detail so the argument goes identify specific anxieties and forms of anxiety management as integral elements of hegemonial middle class identity apart from its audacious link between psychoanalysis and marxist feminist as well as postcolonial ideology criticism this study provides a nuanced analysis of the ways in which allegedly trivial texts negotiate questions of individual and trans national identities in doing so it offers a fresh look at beloved tales like alice s adventures in wonderland the wizard of oz and peter pan contributes to the dynamic field of adaptation studies and highlights the necessity to approach children s entertainment more seriously and more sensitively than it is generally the case
